Day 2: Vocabulary, Pronunciation, and Grammar Practice

Choose any [vocabulary lesson](#) or quiz and put 37 new words onto note-cards.

Study tip for vocabulary lessons: Your goal is to learn all 1,700 words in the vocabulary section of my course, so you should use a note-card system in which 1) You write one word on a note-card in large bolded dark letters, 2) On the other side, write a definition, a sample sentence, synonyms, and antonyms of the word you are studying.

Review these note-cards regularly so that they get into your long-term memory forever.

To put all 1700 words onto note-cards will take you approximately 140 hours, so each time you study vocabulary aim to put at least 37 vocabulary words onto note-cards. Remember that these 141 hours is important vocabulary practice so make the note-cards and learn the words.

If you follow this routine, you will have all words written onto note-cards by the time you complete this course.

As you complete the speaking and writing practice tests, your TOEFL mentor will provide your feedback about your word usage. Write down into your speaking and writing journal any words that you are misusing and that you should be using so that you can learn from your mistakes.

Complete Pronunciation [Pre-Test for Vowel and Consonant Sounds](#) and e-mail parts A-B to mbuckhoff@aol.com

Study tip for pronunciation lessons: Using a habit called tracking, you should read out loud with me everything that I say in the videos.

This will help you get used to the vowel and consonant sounds of American English and to become more comfortable with syllable division and grammatical word endings, word stress, sentence rhythm, intonation, and thought groups and blending.

It will not be easy for you to read out loud with me; in fact, in the beginning, your mouth will get tired, and you will feel like I am talking too fast. However, in time, you will be able to keep up with me in an intelligible manner.

Write down into your speaking journal any words that you are mispronouncing and practice making audio recordings of the troublesome words based on my corrections.

Complete [grammar pre-test](#), write three new sentences in your grammar journal.

Study tip for grammar lessons: Keep a grammar journal so you can write down new structures that you are learning. Also, correlate any grammar problems that you are having with your writing and speaking feedback and match those problems to the lessons in these sections of the course. For example, if your TOEFL writing mentor tells you that you are having some trouble forming or using adjective clauses, then you should make it a point to review that lesson in this part of my course.

Day 3: Writing and Speaking Practice

Choose any ONE [writing lesson](#). Take notes and write a 125 word summary of the lesson so that you master the content being taught and so that you practice your integrated writing skills.

Study tip for writing practice: You MUST send me writing practice if you want to improve. Be brave and do not be afraid to read/hear my comments. Remember, as your TOEFL writing mentor, you are paying me to help you improve your writing proficiency, and it is impossible for me to help you if you do not send me regular writing practice. "Hearing is good, seeing is better, but doing is best," says a famous educator. You must DO things in my course if you want to get better! Therefore, send me writing practice, read my comments, follow my suggestions, and you will get better.

Choose any ONE [speaking lesson](#). Take notes and record yourself giving a 60-second summary of the lesson so that you master the content being taught and so that you practice your integrated writing skills.

Study tip for speaking practice: You MUST send me speaking practice if you want to improve. Be brave and do not be afraid to hear my comments. Remember, as your TOEFL speaking mentor, you are paying me to help you improve your speaking, and it is impossible for me to help you if you do not send me regular speaking practice. "Hearing is good, seeing is better, but doing is best," says a famous educator. You must do things in my course if you want to get better! Therefore, send me your speaking practice, listen to my comments, follow my suggestions, and you

will get better.
